### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

#### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 26, 28-29, and 31 are rejected under 35 U.S.C. 102(b) as being anticipated by Trovinger (WO 00/18583).

Trovinger et al. disclose a sheet folding apparatus comprising fold blade 217; clamp rollers 232; fold blade receptacle 211; see figure 14. Fold blade receptacle 211 is movable to fold blade 217 and contains spring members 230. The central portions of spring members 230 contact the fold blade during the insertion/folding operation; see page 22, second paragraph.

#### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 27 and 30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Trovinger (WO 00/18583) in view of Reis et al. (US 5,169,376).

Trovinger does not directly disclose moving the fold blade between two spring biased members (which flex apart), however Reis et al. teach a method of folding in which fold blade 5 inserts sheets 17 between spring biased members 3 and 4. The sheet is subsequently folded; see figure 1. It would have been obvious to one of ordinary skill in the art at the time the invention was made to include the teachings of Reis et al. in the invention to Trovinger in order to assist the sheet travel to the folding members.

***Allowable Subject Matter***

5. Claims 32-34 are allowed.

***Conclusion***

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher R Harmon whose telephone number is 703-308-8643. The examiner can normally be reached on Monday-Thursday from 8-6.
